

Bug No: BUG-1

Tester: Emre Bayraktar

Assigned To: Dev

Description: The game winner shown incorrectly when Player X wins the game

Priority: Highest

Steps to reproduce:

1. Open the web browser
2. Navigate to <https://localline.github.io/QA-Automation-Specialist-Challenge/>
3. Execute the following game moves:

Player X clicks on cell#0

Player O clicks on cell#1

Player X clicks on cell#3

Player O clicks on cell#2

Player X clicks on cell#6

Expected Results: "Player X has won!" is displayed on the screen.

Actual Results: "Player O has won!" is displayed on the screen.

Restart Game

-----  
Bug No: BUG-3

Tester: Emre Bayraktar

Assigned To: Dev

Description: The game does not restart when "Restart Game" button is clicked

Priority: Highest

Steps to reproduce:

1. Open the web browser
2. Navigate to <https://localline.github.io/QA-Automation-Specialist-Challenge/>
3. Player X clicks on cell#0
4. Click on the "Restart Game" button

Expected Results: The game should be restarted and a fresh game board should be displayed

Actual Results: Error alert is displayed, the game does not restart and previously played moves are still shown on the game board after handling the alert.
