Bug Report

Project	Tic Tac Toe Game
Issue Type	Bug
Issue Number	TTTG-001
Reporter	Dilshod Norqulov
Summary	The winner's name is determined incorrectly after fulfilling game's winning conditions
Environment	QA / Prod
Platform	Windows
Operating System	Windows 10 Pro
Browser	Chrome 108.0.5359.125
Priority	High
Assigned to	Dev Manager
Severity	Critical
Description	Two players place marks on cells with indexes from 0 to 8. When player X wins the game the message "Player O has won!" appears on the game status
Steps to Reproduce	1. Open chrome browser 2. Navigate to the webpage https://localline.github.io/QA-Automation-Specialist-Challenge/ 3. Mark the cells in following order to find player X as a winner - Player X marks cell 0 - Player O marks cell 3 - Player X marks cell 1 - Player O marks cell 4 - Player X marks cell 2 4. Verify player X wins the game
Expected Result	Message "Player X has won!" to be appeared
Actual Result	Message "Player O has won!" appears
