Bug Report

Project	Tic Tac Toe Game
Issue Type	Bug
Issue Number	TTTG-002
Reporter	Dilshod Norqulov
Summary	The game doesn't stop when a player places 3 marks in a diagonal row from right to left
Environment	QA / Prod
Platform	Windows
Operating System	Windows 10 Pro
Browser	Chrome 108.0.5359.125
Priority	High
Assigned to	Dev Manager
Severity	Critical
Description	When a player places 3 marks in a diagonal row the game should stop, but game status appears as "It's O's turn"
Steps to Reproduce	1. Open chrome browser 2. Navigate to the webpage https://localline.github.io/QA-Automation-Specialist-Challenge/ 3. Mark the cells in following order to find player O as a winner - Player X marks cell 0 - Player O marks cell 3 - Player X marks cell 1 - Player O marks cell 4 - Player X marks cell 2 4. Verify the game ends and player O wins the game with 3 marks in a diagonal row
Expected Result	Message "Player O has won!" to be appeared
Actual Result	Game continued, and "It's O's turn!" message appears
